## OTHER

---

Together with Václav Volhejn and others, I manage a YouTube channel [Polylog](#) containing educational videos on algorithmic topics. The channel has about 70,000 subscribers and 4,000,000 views.

In the past, I helped with the organization of competitions and educational camps for talented high school students ([Czech Olympiad in Informatics](#) 2015–2021, [Kasiopea](#) 2016–2021, [MKS](#) 2015-2019, [M&M](#) 2015-2018). I sometimes still send problems to algorithmic or math competitions.
